

Kanishka Karnwal

Full Stack Developer

+91-9412662409 | karnwalkanishka@gmail.com | LinkedIn | Noida, UP

SUMMARY

Full Stack Developer with 4+ years of experience building modern and scalable web applications using React, Next.js, Node.js, NestJS, TypeScript, MongoDB, and REST APIs. Proven contributor to enterprise ITSM applications at HCLSoftware, developing production-grade features across Work Item, Task, Incident, Change, Problem, CMDB, SLA, and Knowledge Management.

Strong experience in frontend development, API integration, state management, UI architecture, and responsive application design. Hands-on experience building full-stack applications using Next.js and NestJS, including authentication, CRUD operations, dashboards, database integration, and API development.

Experienced with MongoDB, PostgreSQL, SQL, GraphQL, WebSockets, cloud technologies, Git, Jenkins, Postman, and CI/CD workflows. Skilled in troubleshooting production issues, implementing UI and API enhancements, and collaborating with cross-functional teams. Experienced in applying AI-assisted development tools to improve productivity, code quality, and application delivery. Consistently rated 9.5+/10 for ownership, problem-solving, and delivery excellence.

EXPERIENCE

HCLSoftware | Full Stack Developer - BigFix Service Management (Enterprise ITSM)

Nov. 2021 - Present | Noida, India

- Spearheaded core full-stack development for BigFix Service Management, delivering high-impact features that improved customer experience.
- Architected a low-code UI builder enabling admins to configure drag-and-drop elements and backend APIs, reducing development time for new React pages.
- Investigated and resolved production issues, security vulnerabilities, SAST/Mend findings, and application defects.
- Integrated GraphQL, WebSockets, API integrations, and third-party services to support real-time interactions.
- Led migration of the enterprise UI from React 15 to React 18 and modernized legacy patterns.
- Worked on Knowledge, SLA, Contract, Slack notifications, List Personalization, Business Function, dashboard, and reporting features.
- Used Jenkins, Git, Bitbucket, Jira, Confluence, Postman, and CI/CD workflows in development and release processes.
- Accelerated delivery with GitHub Copilot, Windsurf, and Claude Code for prototyping, code generation, and refactoring.
- Interacted directly with clients to troubleshoot critical production issues, maintaining a 9.5+ performance rating.

PROJECTS

AWS Account Instance Manager - Built an internal application to optimize dev/test infrastructure costs with secure authentication, AWS instance lifecycle controls, and auditing logs.

Employee Management System - Created employee CRUD, attendance tracking, payroll generation, and an admin dashboard using React and Node.js.

E-Commerce Platform - Developed catalog, cart, wishlist, order flow, and user authentication modules.

News Aggregator App - Integrated news APIs with filtering, search, bookmarks, and category-based navigation.

EDUCATION

BITS Pilani, Rajasthan | Bachelor of Science - Design & Computing | Feb. 2022 - Feb. 2026
Work Integrated Learning Program through HCL's Early Career Program. Focused on systems design, computer architecture, data structures, and modern software engineering practices.
HCL Training & Staffing Services | Early Career Program (TechBee) | 2020 - 2021 | Noida, India

Training in DBMS, Operating Systems, Networking, Digital Logic, Java development, SDLC, requirement analysis, and product quality workflows.

Gargi Girls' School | Intermediate (Class XII) | 2020 | Meerut, UP

SKILLS

Languages: JavaScript, TypeScript, HTML/CSS, SQL

Frontend: React, Next.js, Redux, RTK, React Query, Hooks, Context API

Backend: Node.js, Express, NestJS, REST APIs, Microservices

Database: MongoDB, Mongoose, Aggregations, Indexing, PostgreSQL

Cloud/Tools/AI: Redis, Kafka, MinIO, OpenBao, Docker, Git, CI/CD, WebSockets, GraphQL, AWS,

Postman, Copilot, Windsurf, Claude Code

Expertise: Scalable Applications, Authentication Systems, API Optimization, AI-Driven Development, No-Code Platforms, Scalable Architecture

ADDITIONAL SKILLS

Architecture & Communication: WebSockets, GraphQL

Quality & Testing: Manual Testing, Test Case Design, SDLC/STLC Understanding

Collaboration: Cross-Functional Coordination, Requirement Analysis, Agile Workflows

Professional: Problem-Solving, Troubleshooting, Communication, Teamwork
